Stanford Magleby

Stanford Magleby was recently directed to become Administrator of Heber Valley Care Center. He comes to Heber from his work at Orem's Lakecrest Development Center, one of the twelve Utah centers owned and operated by "Care Enterprizes," a corporation which is prominent in the western states.

Stan, as he is called, was born on May 20, 1953, in Concord, Ca. He is one of four children born to Burns E. and Rhoda Rees Magleby. The family made their home in nearby Pittsburg, California. Stan attended elementary school through Pacific High School in Pittsburg. While a student, he was very active in all sports; he was also president in the local L.D.S. Seminary.

Stan's father worked at an oil refinery, and his mother taught school. They were both born and raised in central Utah, he came from Monroe and she was from Loa. They are both retired now.

Stan worked and saved his money so he could come to Provo to attend the Utah Technical College. He had completed two years at Trade Tech, 1972-1974, when he was called to fill an L.D.S. Church mission in Houston, Texas. He had a good missionary experience there; however, he found that he would have to earn more money if he were to complete his formal education. He returned from his two year mission in 1976 and found work in construction.

After saving his money, Stan entered the Brigham Young University in Jan. of 1977, his major was Educational Psychology with emphasis on working with the mentally retarded.

While at BYU, Stan met Nancy Harker, a student who was majoring in Botany. Nancy was born in Pasadena, Ca. When she was twelve years old, her family moved to Salt Lake City. Her parents are Reed B. and Doris Miner Harker; Nancy was one ot their four children. Her father was Director of one of the Medical Research Laboratories at the University of Utah until recently.

Stanford Magleby and Nancy Harker were married in the Salt Lake LDS Temple on August 9, 1978. They continued with their classes at BYU. In April of 1980, Nancy graduated with her degree in Botany; on June 17, 1980, their first child, Christopher, was born. Stan graduated from the BYU with his degree in Educational Psychology in 1982, and their second child, Cathryn, was born Sept. 4, 1982. Both children were born in Payson's Mountain View Hospital.

Nancy and Stan had bought and operated a gift import store in Provo, called The Emporium. After a year or two they sold the business and used the money to finance Stan's education.

After graduation, Stan took a job at Orem's Lakecrest Developmental Center as Program Director in charge of the development of the 75 patients who lived there. He stayed in this work until the day he was told of the need for a new administrator at the Heber Valley Care Center.

While with the Lakecrest Center, Stan served as a board member of Utah Special Olympics, and he was a board member of Utah County Association for Retarded Citizens.

Stan is really pleased that he has been given the responsibility of being an administrator here in Heber, as this care center is a good one in which to start; it has a lot to offer, it is small and one can be on a more personal basis with the patients, staff, and the people of the community. The location is ideal because of the serene surroundings, and its close proximity to the larger cities.

Stan said that he has already seen the community support of Heber City, and the volunteer group here is one of the largest of any of the centers in Utah. He has great hopes of developing a small park just north of the center which can be of use for the town's people as well as patients as a recreation area in this section of town. The ground is already secured. What is needed is volunteered work to accomplish the park.

Stan and Nancy are anxious to move to Heber Valley and have listed their home in Springville 5th Ward for sale.

Stan is currently the President of Seventy's Quorum in his ward and Nancy is Ward President of the Young Women.

They enjoy backpacking, hiking, fishing, snow skiing, golf and reading. Today, they have brought some plants to help make the center beautiful.

Stan said that he would welcome any input from the community concerning improvement for patient activities.

July Fourth Celebration Committee Organized

The guests and residents of Midway will be celebrating the birth of this nation at Midway's annual Fourth of July Celebration. Due to their excellent past record of planning and executing a superb birthday commemoration, the Midway Boosters Club has again asked Brigham Spencer and Erla Young to co-chair the event this year.

With their typical enthusiasm and flair, Spence and Erla have once again outlined an exciting 4th of July. One that will be enjoyed by young and old alike.

As is the tradition, the flag raising ceremony, patriotic speech and breakfast will be held on the town square. There will also be the 10,000 meter Firecracker Run and new this year will be a Treasure Hunt for the children.

All are called to reflect upon the sacrifices made by our forefathers when they dared to break their ties with the mother country. It took courage to write: "We the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution of the United States of America."

Come reflect and celebrate this nation's birth in the beautiful town of Midway on July 4th.

News
